

Pitch Tape for Rebar Arrangement

ET-150 ET-200 ET-250 ET-3S

Interval marks of rebar are printed on the tape.

- Just stick without any tools.
- Shorten the time of scaling pitch at site.
- Able to scale accurately, reducing mis-measurement.
- Efficient work by following the clear operating instruction.

2 types of pitch in 1 roll

50m per roll

· Easy construction without any tools.

· Clear operating instruction to follow.

· Able to quickly check after finishing the work.

■SPEC Pitch Tape

Item No	Color	Pitch	Quantity	Total Number	Thickness	Width	Range of error
.ET-150	Green	75mm & 150mm	20 rolls×6	120 rolls	0.9mm	10mm	0±0.2%
ET-200	Black	100mm & 200mm	20 rolls×6	120 rolls	0.9mm	10mm	0±0.2%
ET-250	Blue	125mm & 250mm	20 rolls×6	120 rolls	0.9mm	10mm	0±0.2%
ET-3S	Green, Black, Blue	See above	20 rolls×2×3 kinds	120 rolls	0.9mm	10mm	0±0.2%

※Paper made

(reduction 60%) scale

Pitch Measure (All Stainless Steel)

PM-5.5

Interval marks of rebar are printed on the tape measure.

- Resistant to corrosion.
- Long lasting scale markings made from nylon coating on the tape measure.

[Kind of pitch & symbol]

- Clear marking
- 125mm & 250mm → ▲ ▲
 - 100mm & 200mm → ■ ■
 - 150mm & 300mm → ◆ ◆
